

New Global Customer Webinar Series: Teradata Product Roadmap Roadshow

Discover how our latest innovations are empowering enterprises globally to maximize AI potential.

Join us on **Thursday, September 12 at 8:00 a.m. PT** to learn more about our latest advancements in Trusted AI and our vision for helping you drive your business forward.

During this webinar, our experts will:

- Explore how advancements in optimizing AI/ML and boosting data science productivity can expand your use cases with open-source and generative AI technologies.
- Discover the benefits of AI Unlimited, our new on-demand AI/ML engine in the cloud
- Learn what's new in financial governance and knowledge intelligence features
- Understand our support for open table formats Apache Iceberg and Delta Lake
- Take advantage of ask.ai, Teradata's generative AI capability
- And more

Don't miss this opportunity to engage with our product experts and get your questions answered in a live Q&A.

Live Demo: Drive Fast, Reliable Insights with In-Database Analytics

Organizations face significant challenges in preparing data for analytics. They're overwhelmed by the increasing volume, variety, and velocity of data from disparate sources, all of which make it difficult to efficiently consolidate, explore, and prepare data. This fragmentation often leads to delays and inaccuracies in generating meaningful insights, hindering decision-making processes and overall business performance. Organizations also struggle to implement analytics outcomes in production, hindering their ability to operationalize insights.

Teradata's ClearScape Analytics™ offers a robust solution to these challenges with a comprehensive suite of in-database functions designed to accelerate analytics at scale. By leveraging these functions across project lifecycles, organizations can perform complex data transformations, statistical analyses, and machine learning (ML) operations directly in database. This approach not only reduces data movement and latency but also ensures that analytics are performed on the most current and accurate data available.

In this demo, we'll explore ClearScape Analytics functions and demonstrate practical applications.

Join us live to learn how to:

- Gain efficiencies across all aspects of the data lifecycle, from acquisition to operationalization, by leveraging powerful native capabilities
- Streamline data discovery, cleansing, and preparation to enhance analytics capabilities and ultimately drive more informed business decisions
- Overcome data preparation challenges and achieve faster, more reliable insights with the power and versatility of in-database analytics
- Use a full suite of AI/ML tools to derive unique insights from data at scale
- Eliminate friction in operational deployment of analytics products at scale, unlocking next-generation insights across lines of business and consumers

Date: Tuesday, September 24, 2024

8 a.m. PT | 11 a.m. ET | 3 p.m. GMT | 4 p.m. BST (UK)

Upcoming Virtual User Group (VUG) - Q4 2024

We express our sincere gratitude to all of you who enrolled and successfully completed our Virtual Online Class sessions recently. Your active participation has been truly remarkable, and we're excited to share more exciting opportunities with you. Please log in to [Teradata University](#) to explore more courses.

Register to upcoming Q4 sessions on VUG workspace:

- [Turbocharge Your Insights: Optimizing BI Queries](#)
- [AI at Speed: Transformative Insights for Competitive Advantage](#)
- [Unlocking Advanced Data Insights: Exploring Period Data, Time Series, and 4D Analytics](#)
- [Vantage Cloudlake Console - Latest Interface feature update](#)
- [Say Goodbye to Spool Space Errors: Optimizing with Temp and Derived Tables](#)
- [Architecting Tomorrow: Innovate, Integrate and Scale with Confidence](#)
- [Co-existence between Teradata Vantage and Databricks](#)

Those of you who may have missed some sessions or want to revisit the valuable content can now access all the class recordings on demand on our [Teradata Virtual User Groups \(VUG\) workspace](#). Feel free to listen to the recordings at your convenience.

- [What's new in Vantage 17.20 – Data Science Capabilities](#)
- [Overcoming Data Fragmentation to Unlock AI innovation - Product Live Demo](#)
- [Modernize your Data Pipelines while migrating to VantageCloud Lake](#)
- [SAS Modernization](#)
- [The importance of Data Governance in Modern Cloud Data Ecosystems](#)
- [Explain the Explain for Advanced users](#)

For any further questions or assistance, please reach out to Coordinator.CustomerEducation@Teradata.com.

Hands-on Virtual Classes in 2024

Find a class in your time zone, and check back for added sessions:

[View Public Schedule →](#)

* Virtual Instructor-Led classes are live with hands-on labs and have an associated cost.

For scheduling, pricing, or to inquire about a different class, please contact customer.education@teradata.com
